COMMERCIAL AND MONEY MATTERS.

(For Commercial and Money Matters, see Last Page.)

SATURDAY, P.M.

The fancies were heavy again to-day, and the sales were not large. The great difficulty with the market appears to be the great shyness of outside speculators. Those who were in last year were so essentially up set that they cannot operate and new ones are frightened by the lack of brush exhibited by those who went in last year.

The Exchange market for the steamer closed very heavy and inactive. The demand for this steamer has been very light and the supply has been increased by purchases of bills to some extent from Canada, the West Indies and the South. Sterling is 92 1/2; France 52 1/2 to 56.

Among the conditional subscriptions to the Erie Railroad we hear of the following: Jacob Little \$100,000; George Griswold \$100,000; Rufus L. Lord \$100,000; Nehemiah & Townsend \$50,000 or \$100,000; Lyman & Dennis \$50,000.

The Union says that the Secretary of the Treasury has not made any permanent arrangement in relation to the deposits, such as was alluded to in our Washington letter a few days since. He is engaged at present in securing public money, and rendering the most most active and efficient; increasing the deposits in the mint, and in coinage, especially of dimes and half dimes, to be used under the new Post-office law. He has already drawn upon the places of deposit for Mexican dollars to be sent to the mint and branch mints in different sums of \$30,000, \$50,000, \$100,000, and \$50,000—*to the amount, in all, of \$250,000*, to be coined into dimes and half dimes, for the use of the people under the new Post-office law.

The next issue will probably be of quite when a sufficient number of dimes and half dimes is coined.

The Bank of the State of North Carolina has declared a semi-annual dividend of three and one-fourth per cent.

The Merchants' Bank of Newbern has declared a dividend for the same period of three and a half per cent.

The business of the Coal region for the week ended last Thursday was:

Railroad	Canal
11,037 66	3,194 04
Schuykill Haven	476 15
Port Clinton	677 06

Total 39,191 07 5,745 48

Previously 21,191 00 6,222 00

Total 33,782 07 68,077 48

Total tons 365,499 05.

The Merrimack Manufacturing Company of Lowell has declared a semi-annual dividend of ten per cent.

Up to the 1st June \$210,000 was paid in at the Huntsville Branch of the Alabama State Bank in accordance with the provisions of the law requiring one-third on all notes due by that time, to be paid. The good debt of this bank was reported by the Bank Committee \$25,000.

To the great Central Vermont Road Montpelier has subscribed \$130,000, and Fox, Game, it is said, will add \$100,000. The books are now open at Burlington, R. Boston and other places along the route.

Hill's Patriot mentions the presentation to the New Hampshire Legislature of "petitions signed by upwards of one thousand persons, for a railroad from Concord to Portsmouth, through Manchester. A bill to incorporate this road, which is said to have the favor of the wealthiest capitalists in Portsmouth and Rockingham county, has already been introduced in the House to the incorporation of a railroad from Nashua to Portsmouth has also been introduced." The latter project receives no favor in Portsmouth, and is believed there to have been got up by persons inclined to their road. This latter road, if built, will give New York a direct communication with Portsmouth by the way of New Bedford and add largely to the business of the New Bedford Road.

We learn from the Rutland Herald, that the subscription of the Connecticut River and Lake Champlain Railroad, by the route of the Otter Creek, was opened on Tuesday with great spirit, in the town on the route. In Rutland it is stated: "the books were opened at two o'clock and closed at six, when it was ascertained that over one hundred thousand dollars were subscribed in this town alone, in sum from \$100 to \$10,000." On Wednesday morning the subscription had increased to \$100,000, in Brandon \$87,000 were subscribed on the first day; in Pittsford \$60,000; in Shrewsbury \$80,000. The Herald adds: "We have no doubt that \$1,000,000 of stock will be taken in the line of the road in Vermont, and we should be surprised if it did not go up to \$200,000."
